HIT THE RIGHT NOTE

MUSIC FOR THE CEREMONY AND RECEPTION

Having live music for the processsional, recessional and signing of the register always adds an extra special layer to your day. As well as the traditional ceremony music options - harpists, string quartets and sopranos - we also have more contemporary options such as singer-guitarists to welcome your guests and ensure a sense of occasion throughout.

As the festivities continue, llive background music creates a warm and inviting atmosphere for your drinks reception and wedding breakfast. Whether you'd prefer sophisticated cocktail jazz, elegant classical arrangements or current pop, we have hundreds of options to choose from that will provide the perfect soundtrack to keep the mood relaxed, joyful, and effortlessly celebratory.

CELEBRATE YOUR HERITAGE

MUSIC FROM AROUND THE WORLD

If you or your partner would like to honour your cultural roots, we offer a rich variety of performers to help you do just that. From the intricate melodies of sitar players and the vibrant rhythms of Cuban guitarists to the charm of Italian folk trios, we have a diverse selection of artists to bring a personal and meaningful touch to your wedding

And it’s not just about the music – we can also provide traditional dancers, meet-and-greet acts, and other unique performances that reflect and celebrate your heritage, ensuring your wedding feels truly authentic and deeply personal.

KEEP THE MAGIC FLOWING

ICEBREAKERS

While the photographs are being taken, it’s a good idea to keep your guests entertained and engaged. A strolling performer, such as a magician or silhouette artist, makes for a charming icebreaker – perfect for helping guests mingle and ensuring the celebratory atmosphere stays lively.

If you’re looking for something truly unique, why not surprise your guests with an unforgettable act like our Living Topiary. Not only will they spark conversation, but they also create a fun photo opportunity.

For the little ones, we can provide one of our outstanding children’s entertainers to keep them occupied. Plus, a range of garden games – from giant chess to crazy golf can be hired offering interactive fun for all ages.

CAPTURE THE MOMENT

LASTING MEMORIES OF THE DAY

From fun photo booths and interactive guestbooks to elegant portrait artists (think caricatures but in the form of a flattering fashion illustration) and live painters, these unique touches help preserve the joy and emotion of your wedding day. Give your guests the chance to take part in creating meaningful, tangible mementos that can be cherished forever.

DANCE THE NIGHT AWAY

PARTY BANDS + DJs

And then to the dancefloor! Any of our musical acts can learn your choice of song for the first dance if requested and we have all types of band to suit your budget, ranging from a tight four piece party band to a traditional Ceilidh band right through to an 18-piece showband. With setlists tailored to your event and your audience, our pool of experienced DJs play everything from the latest hits, to old favourites to make sure your dancefloor is filled from the first dance to the final encore.

GET THE WOW FACTOR

CAPTIVATING STAGE ACTS

If you’re looking for something that is unusual, surprising and exciting for your wedding, why not consider having a staged cabaret style act? Magicians, circus performers and dance troupes can be utilised to wow the crowd. Other forms of music can also work wonderfully - an excerpt from an opera or a virtuoso classical recital can be a great way to make your wedding celebrations really stand out. The Bride and Groom could even be incorporated into the performance somehow making it a real crowdpleasing way to signal the start or the finale of the night.

"why not elevate the evening with a staged cabaret-style act, an unusual option that will really set your big day apart"
